Looks good to me! Good enough for govt work?

Just had a few comments: didn't really look at the tables (they looked similar to what was already in the 2011 draft...).

Happy Friday!

Hi all,

Since you seemed interested in cell proliferation, we figured we'd send the compiled writeup to you for comments/discussion. It probably needs a bit of refinement still, but this should be a reasonable writeup of the labeling studies.
